ANTISEPTIC HAND GEL

Application:

The product is designed to refresh your hands.

Chemical characterization:

The base of the product is appropriately concentrated ethyl alcohol with a concentration of 62%.

Features:

Appearance: a colorless gel with a fresh smell and a characteristic odor of ethyl alcohol

Density at 20 ° C: approx. 0.880 g / ml

pH: 5.5-6.5

Performance characteristics:

The gel effectively cleanses and refreshes the skin of the hands without using water.

Provides excellent hygiene every day. Perfect for use outdoor or in travel.

Thanks to the glycerin content, the gel does not dry hands, leaving the skin of the hands perfectly clean and smooth.

Usage:

Apply a small amount of the product to your hands. Rub it on your hands and let it dry.

Storage conditions:

The product should be stored in storage rooms below 30 ° C away from sources of heat and fire.

Packaging: 0.25L, 0.5L or 1L PET bottle.
